Emergency Clinic For immediate screening, evaluation and treatment of unscheduled ambulatory outpatients with medical (vs. surgical) problems of a minor nature.

Emergency Trauma For treatment of patients with surgical (vs. medical) problems, lacerations and fractures which can be cared for on an outpatient basis.

Emergency Admitting Stretcher patients may be examined, treated, and released for outpatient followup; transferred to associated institutions; or evaluated, stabilized, and admitted directly in inpatient wards for definitive care.

Diagnostic and Evaluation Ward A 54-bed facility for holding selected acute orthopedic and medical cases for more thorough assessment and initial management and also for short-term (less than 24 hours) admission.

*Dual Appointments: G. V. Anderson, *Ob/Gyn*; G. C. Crary, *Psychiatry*; P. K. Hanashiro, *Medicine*; E. F. Lenoski, *Pediatrics*;
G. A. Lewin, *Pediatrics*; G. L. Looney, *Pediatrics*; L. F. Mackby, *Surgery*; M. Steele, *Medicine*
**Triple Appointment: Willis A. Wingert, *Pediatrics & Community & Family Medicine*
